TDI MANAGER WATCH™ SURVEY

Objective - The portfolios included in this Survey aim to maximise investor returns while paying attention to socially responsible investing and issues relating to the development and upliftment of previously disadvantaged communities.

Benchmark Methodology CPI - Due to the reweighting and rebasing of the CPI from January 2009 the benchmark numbers reflect a compound of month to month CPI returns. The historical month to month numbers used in calculations are the official month to month numbers based on the old basket prior to January 2009 and new basket post January 2009. The adjusted CPI(I-Net code: AECPI) figures are shown together with statistics below should these numbers be preferred for comparison purposes.

Benchmark Methodology CPIX - The benchmark numbers prior to January 2009 reflected a compound of month to month CPIX returns. Due to the reweighting and rebasing of the CPI and discarding of the CPIX numbers from January 2009 the historical month to month numbers used in calculations are the official month to month numbers based on the old CPIX prior to January 2009 and the new CPI basket post January 2009. The CPI excluding owners equivalent rent (I-Net code: AECPIX) and adjusted CPI(I-Net code: AECPI) figures are shown together with statistics below should these numbers be preferred for comparison purposes.

SIM SRI Bond Fund	22.5% GOVI; 67.5% OTHI; 10% Stefi

Property

Futuregrowth Community Property Fund	CPI + 4%
--------------------------------------	----------

Terminology

Targeted Development Investment - investments which place a more significant weighting on the importance of economic growth and the wider aspects of ethical and societal concerns.

Corporate Social Responsibility - how a company manages its business to generate shareholder value through minimising impact on the environment and a positive impact on society.

Screening - the practice of including or excluding funds based on social and/or environmental criteria. Generally, investing in companies that make positive contributions to society and avoiding companies whose business is 'harmful'.

Shareholder activism - actions of socially aware shareholders and investors to exercise their powers through voting at annual general meetings for the support of socially responsible related resolutions.

Performance figures are shown gross of fees and taxes. Past history is not necessarily a guide to future performance.

Quantitative figures are calculated on 3 year performance returns.

Performance should not be judged over a short period of time.

General :

Managers are ranked from highest to lowest active return. In some cases rankings may be different due to return differences disguised by the rounding. Rankings are purely for illustrative purposes.

Statistical Definitions :

The Median is the value above or below which half the managers fall.

The Upper Quartile is the value above which one quarter of the managers fall.

The Lower Quartile is the value below which one quarter of the managers fall.

Risk Analysis Definitions :

"Volatility" is the annualised standard deviation of the manager's monthly returns.

"Volatility" is a measure of the variability of the manager's returns.

"Return to Risk" is the return divided by the "Volatility"

"Return to Risk" is a measure of the return earned per unit of risk taken.

"Active return" is the return earned by the manager less the return on the benchmark.

"Active Return" is a measure of the value that the manager has added or detracted over the benchmark return.

"Tracking Error" is the annualised standard deviation of the monthly "Active Returns".

"Tracking Error" is a measure of the variability of the manager's returns relative to the benchmark returns.

"Information Ratio" is the "Active Return" divided by the "Tracking Error".

"Information Ratio" is a measure of the value added per unit of risk taken relative to the benchmark.
